## ENTERTAINMENT SOLUTIONS FOR YOUR HOME

### HOME THEATER

Friendly Computers designs home entertainment systems for people who want more out of their recreation time.

We specialize in complete solutions using Media PCs to control your entire entertainment system. With our customized packages, you will be able to watch movies, play games, watch and record television programs, and get online on the same projector screen.

We can integrate your Home Theater into your wireless network, or build one from scratch. Our plans accommodate your budget.

### AMUSE YOURSELF

- Watch movies in a dramatic theater setting with high end graphics capabilities in the comfort of your home.
- Play video games on the Media PC, or use your current gaming system.
- Watch your favorite television programs on the "Big Screen".
- Record television shows and DVDs to enjoy later.
- Use the computer capabilities of the Media PC to get online, check email, work, basically anything that you normally use a computer to do.
- Envelop yourself in the advantages of hearing crystal clear audio from high performance speakers. Enjoy your favorite CD's, or tune into your local radio stations.
- Use a Webcam for video teleconferencing and chatting via your instant messenger service.
- Edit and share pictures from your digital camera with your family and friends. Vacation pictures have never been so interesting!

### A COMPLETE SYSTEM

Friendly Computer provides you with a complete amusement center for your home. We can design and install your Home Media Center that includes:

- Luxurious theater seating
- Lighting sconces to enhance the room's ambiance
- Precise speaker placement for optimum sound
- Projector that works best in your environment
- Wireless interface devices that can be stowed away discreetly
